Indian Radiological and Imaging Association

Telangana State Chapter

Presents

6th Radiologic Anatomy Course 2022 (RAC 2022)

Message

Dear Friends and Students,

On behalf of the IRIA TS Chapter, we take immense pride and pleasure in inviting you to the 6th Radiologic Anatomy Course (virtual) on 27th November & 4th December. We have been successfully organizing this course since 5 years and we have always received continuous support and appreciation from all over the fraternity.

The Radiologic Anatomy Course is unique in the sense that it places Radiological Anatomy as the central theme, around which the whole course is modelled. We aim to create an academic platform in which the best of resources are brought to the access of students who choose to enroll in the course. This time around, we have placed greater emphasis on a variety of topics in order to enable dissemination of quality knowledge.

Come and join us in this academic endeavor.

Dr. V. N. Goud

President TS Chapter IRIA
and Organising Chairman

Dr. P. Krishna Mohan

General Secretary TS Chapter IRIA
and Organising Secretary

Indian Radiological and Imaging Association

Telangana State Chapter

Presents

6th Radiologic Anatomy Course 2022 (RAC 2022)

Why this course ?

This course comprising of Anatomy will lay solid foundation for future understanding in the field of Imaging.

Highlights of the course

Faculty are mostly actively practicing clinical Radiologists with keen interest in certain sub specialities. It is a combination of experienced and young dynamic speakers with excellent track records.

Radiologic Anatomy Exam Questions of last 10 years will be covered. Video clippings are included, where relevant.

Each lecture has few MCQs to make lectures inherently interactive.

Radiologic quiz based on FRCR pattern will be conducted. First three rankers will be awarded suitable prizes.

Who should attend this Course ?

All Radiology PGs doing MD, DMRD, DNB should attend at least once, preferably in first year.

Students targeting FRCR, EDiR or other fellowships.

Nuclear Medicine PGs and Consultants.

PGs pursuing Anatomy, General Medicine, General Surgery.

MBBS doctors who aspire to become Radiologists in future.

All MBBS students when they are approaching Anatomy exams.
